As part of its growth strategy in Belgium's neighbour countries, BESIX Real Estate Development - a real estate subsidiary of BESIX Group operating in 13 European cities and with some 500,000 m² under development (spread over 20 office projects, residential and services) - announces the appointment of Stéphan Léturgez as Director France.

Stéphan will be in charge of residential and commercial real estate development throughout the country, as BESIX RED seeks to strengthen its presence on the French market.

« Stéphan Léturgez's arrival at the helm of BESIX RED France demonstrates our ambition to consolidate our presence in France; just as we have done successfully in Belgium, the Grand Duchy of Luxembourg and are currently doing in the Netherlands and Portugal. His expertise is a valuable asset for our group, which considers the French market one of its main axes of geographical diversification », says Gabriel Uzgen, Managing Director of BESIX RED.

As a Director for France, Stéphan Léturgez will be in charge of developing BESIX RED's promotional activities in office, residential and commercial real
